Product Description

DD19A electric packaging machine

DD19A electric packaging machine is a high-quality and novel mechanical packaging tool designed according to the specific bundling situation of industrial products in China.

This product is lightweight, easy to operate, and safe and reliable. Quick and firm binding, low labor intensity, and high binding efficiency. Only one operator is needed to complete the work. Therefore, this equipment can be widely used for bundling and packaging various steel and non-ferrous metal materials.

It can be equipped with two large capacity batteries with a capacity of 4000mAh, which is easy to replace and makes charging more stable and safe. It can charge around 200 PET plastic steel strips at once. Equipped with a large capacity battery, it has a long-lasting battery life, saying goodbye to the trouble of frequent charging, high efficiency, time-saving and labor-saving

Another characteristic is the intelligent LCD display screen, which provides clear information at a glance. Even first-time users can quickly get started and enjoy the convenience brought by technology.
