Product Description

Continuous Aluminum bag Band Heat Sealer Sachet Heating And Sealing Machine

This machine can seal aluminum foil bag, plastic bag, composite bag, kraft bag, tea bag and shrink film, etc., widely used in medicine industry, food industry, cosmetics industry and daily articles. It is high automation, and can dramatically save labor intensity. Safe, reliable, easy operation, seal fast and tight. Equipped with intelligent temperature meter and conveying speed can be adjusted to actual situation.

Fr-900 sealing machine's heating and cooling block's fixed support adopts stronger stainless steel, which can make the 22 ne block and cooling block not easy to shift, so as to the purpose of stronger sealing stability. Compared with the iron bracket on the market, it has the advantage of stronger and more durable.

It can realize high intensity continuous pipeline operation. The maximum speed of conveyor belt can reach 12 meters per minute. The product is automatically transported to the landing place by the conveyor belt, which improves the production efficiency and saves time for you.
