

High Strength Tempered Roast Blue Steel Strip Iron Belt 19mm Packaging

Our Product Introduction

for more products please visit us on setuopack.com

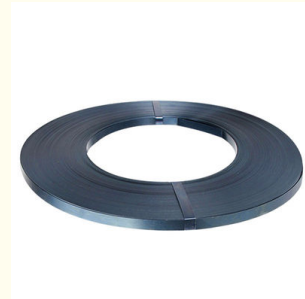

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: G1906
- Minimum Order Quantity: 45kg
- Price: \$45 one reel
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+roll+10days

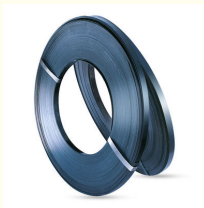

Product Specification

- Width: 19mm
- Thickness: 0.6mm
- Weight: 45kg
- Material: Q235
- Surface: Roasted Blue
- Tensile Strength: Rm650-700MPA
- Highlight: High Strength Blue Steel Strip, 19mm Blue Steel Strip, 19mm Blue Tempered Steel

Product Description

DESCRIPTION

This product is made of Q235 material, with strong ductility, strong tensile strength, not easy to break, and rust prevention. Its durability and excellent performance make packaging safer and more reliable, while also reducing maintenance and replacement costs. Whether in logistics, industrial production, or other fields, steel strips will play an important role.

Steel strips have become an ideal choice for packaging due to their strong ductility, tensile resistance, and fracture resistance. This material has undergone special treatment and has the advantages of durability and rust prevention, making it very suitable for long-term use in various environments.

The ductility of steel strips enables them to exhibit good flexibility and deformation under external forces. Meanwhile, the high tensile strength of the steel strip ensures that it will not easily break or fail even under high tensile stress, ensuring the safety and stability of the packaging.

It also adopts special rust prevention treatment technology, effectively resisting the erosion of environmental factors such as moisture and oxidation, greatly extending its service life. This feature enables the steel strip to maintain good performance even in outdoor or humid environments, reducing the frequency and cost of replacement caused by rust.
