

## Hot Dip Galvanized Spring Hardened And Tempered Strip Steel Iron Sheet Packaging Tape 25mm

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: 2508
- Minimum Order Quantity: 50kg
- Price: To be discussed
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+Box+10days

### Product Specification

- Width: 25mm
- Thickness: 0.8mm
- Weight: 50kg
- Surface: Hot Dip Galvanizing
- Tensile Strength: Rm350-450MPA
- Highlight: 25mm hardened and tempered strip steel, Galvanized hardened and tempered strip steel, Galvanized Tempered Spring Steel Strip

### Product Description

#### DESCRIPTION

Steel strips have become an ideal choice for packaging due to their strong ductility, tensile resistance, and resistance to breakage. This material has undergone special treatment and has the advantages of durability and rust resistance, making it very suitable for long-term use in various environments.

The ductility of steel strips enables them to exhibit good flexibility and deformability under external forces.

Meanwhile, the high tensile strength of the steel strip ensures that it will not easily break or fail even under high tensile stress, ensuring the safety and stability of the packaging.

It also adopts special anti rust treatment technology, effectively resisting the erosion of environmental factors such as moisture and oxidation, greatly extending its service life. This feature enables the steel strip to maintain good performance even in outdoor or humid environments, reducing the frequency and cost of replacement caused by rust.

It can be used to secure and bundle various goods, providing stable and reliable packaging effects for both heavy and light items. Meanwhile, its lightweight and easy to operate characteristics also make the packaging process simpler and faster, improving work efficiency.
