

## Cold Rolled Metal Steel Strapping Seals Iron Sheet Packaging Buckle 1mm Thickness

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: M1.0\*32\*50
- Minimum Order Quantity: 24kg
- Price: To be discussed
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

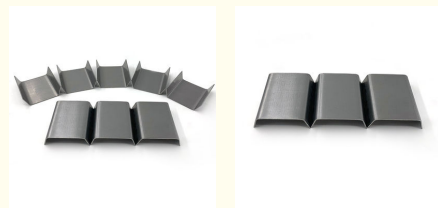

### Product Specification

- Length: 50mm
- Width: 32mm
- Thickness: 1.0mm
- Lock Buckle Strength: Rm400MPa
- Surface: Cold Rolling
- Weight: 24kg
- Highlight: Cold Rolled Steel Strapping Seals, 1mm Steel Strapping Seals, Cold Rolled metal strapping seals

### Product Description

#### Closed lock buckle

A packaging buckle with high connection strength and impact resistance, usually made of high-strength materials, which can withstand large tensile and impact forces, and is not easy to break or deform.

After the entire packaging process is completed, the packaging buckle and steel strip will work together to form a sturdy packaging structure, ensuring the stability of the goods during transportation and storage.

The packaging buckle is treated with cold rolling on the surface, which can enhance its surface hardness and wear resistance, thereby extending its service life. At the same time, its strength reaches Rm700MPa, demonstrating extremely high tensile strength and impact resistance, ensuring that it can withstand large external forces during the packaging process without being easily damaged.

Equipped with a 32mm wide steel strip, it is suitable for pneumatic packaging machines. When used in conjunction with pneumatic packaging machines, this type of packaging buckle can achieve fast and reliable packaging operations. During the packaging process, the packaging buckle can firmly lock the steel belt, ensuring the stability and safety of the goods during transportation and storage. At the same time, the use of pneumatic packaging machines greatly reduces the labor intensity of operators and improves work efficiency.

length	50mm
width	32mm
thickness	1.0mm

Our Product Introduction

for more products please visit us on [setupack.com](http://setupack.com)

Lock buckle strength	Rm700MPA
surface	cold rolling
weight	24kg
Applicable steel strip	Roasted blue,Black paint
