Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: H19
- Minimum Order Quantity: 1 set
- Price: To be discussed
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Model: H19
- Strip Width: 16-19mm
- Strip Thickness: 0.8mm
- Large Tightening Force: 2800N
- Color: Blue
- Total Weight: 1.2kg
- Highlight: Customized manual strapper, manual strapper Bundling Tensioner, Customized manual strapping machine

Product Description

Manual packaging machine

The manual packaging machine is exquisitely designed, making it convenient for users to quickly and effectively complete packaging tasks, greatly improving work efficiency.

The operation of a manual packaging machine is very simple. Users only need to thread the packaging belt through the item, and then align the packaging machine with the packaging belt to fasten it. The entire process does not require complex operational steps or professional skills, allowing users to easily get started and quickly complete packaging work.

The manual packing machine is very suitable for the use of plastic steel buckles and plastic steel belts. Plastic steel buckle and plastic steel strip have become the preferred materials for packaging in many industries due to their high strength and good toughness. The manual packaging machine can firmly fix the plastic steel buckle or plastic steel belt onto the item through simple operation, ensuring that the item is not easily scattered or damaged during transportation and storage.

The manual packaging machine also has the characteristics of small size and convenient portability. This enables it to exert its advantages in various occasions, whether it is a factory production line, warehouse, or logistics center, its presence can be seen. Meanwhile, due to its relatively affordable price, it also allows more users to choose and use it.

In summary, manual packaging machines have become an indispensable equipment in the packaging industry due to their wide applicability, simple operation, and good performance. In the use of plastic steel buckles and plastic steel belts, it can play the
