Product Description

Hand lift steel belt tensioner

This product conveniently and effectively completes packaging tasks, greatly improving work efficiency. It is also sturdy and durable, with strong wear resistance and a long service life. This enables it to leverage its advantages in various situations, whether it is a factory production line, warehouse, or logistics center, all of which have advantages and a market.

It is very easy to operate, just thread the packaging tape through the item, and then align the packaging machine with the packaging tape to tighten it. The entire process does not require complex operational steps or professional skills, allowing users to easily get started and quickly complete packaging work.

It requires a 32mm clamp, which is also very suitable for packaging buckles and steel strips. It has high strength and good toughness, and has become the preferred packaging material in many industries. Through simple operations, ensure that items are not easily scattered or damaged during transportation and storage.

Model	MG-95 20mm
