Product Description

Hand lift steel belt tensioner

The hand lifting steel belt tensioner is convenient and effective in completing packaging tasks, greatly improving work efficiency.

The operation is very simple. Users only need to thread the packaging belt through the item, and then align the packaging machine with the packaging belt to fasten it. The entire process does not require complex operational steps or professional skills, allowing users to easily get started and quickly complete packaging work.

It is also sturdy and durable, with strong wear resistance and a long lifespan. This enables it to exert its advantages in various occasions, whether it is a factory production line, warehouse, or logistics center, its presence can be seen.

It is also very suitable for the use of locks and steel straps, with high strength and strong toughness. Through simple operation, it ensures that items are not easily scattered or damaged during transportation and storage.

Model	MG-95 32mm
