

## Mechanical Split Steel Pneumatic Strapping Tensioner Baler 25mm

Our Product Introduction

for more products please visit us on [setupack.com](http://setupack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: FTL/S25
- Minimum Order Quantity: 1 set
- Price: To be discussed
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

### Product Specification

- Features: Pneumatic Operation, Adjustable Tensioning Force, Durable Steel Construction
- Strap Width: 13-19mm
- Safety Features: Built-in Safety Mechanism To Prevent Over-tensioning
- Accessories: Comes With A Set Of Replacement Parts And Tools For Maintenance And Repairs
- Weight: 3.8kg
- Material: Steel
- Strap Thickness: 0.5-1.5mm
- Maintenance: Regular Maintenance And Lubrication Required For Optimal Performance
- Tensioning Force: 2000N
- Ease Of Use: Ergonomic Design For Easy Handling And Operation
- Compatibility: Compatible With Steel Strapping Of Various Widths And Thicknesses

### Product Description

## Pneumatic tensioner

Split pneumatic baler, usually composed of tensioning machine and locking machine, is a kind of mechanical equipment widely used in various goods packaging fields. The following is a detailed introduction to the split pneumatic baler (tensioner and latching machine) :

First, the tension machine part

The tensioner creates a strong pull force through a pneumatic system that tightly wraps the steel strip around the cargo.

The user can adjust the tension of the tensioner according to the actual situation of the goods to ensure the firmness of the packaging.

Second, the locking machine part

After the steel belt is tightened, the locking machine fixes the buckle on the steel belt or plastic steel belt to prevent it from loosening or falling off.

**Improve packaging efficiency:** The automatic operation of the locking machine can greatly shorten the packaging time and improve the packaging efficiency.

To sum up, the split pneumatic baler is an efficient and reliable cargo packaging equipment. Through the combination
