Product Description

Black painted steel strip is a type of steel strip product that has undergone specific processing. It is commonly used in various packaging, bundling, and transportation scenarios, and is widely popular due to its durability and beautiful appearance.

The black painted steel strip is made of high-quality steel and treated with black paint, which not only enhances its corrosion resistance, but also improves its overall strength and durability.

There are various specifications of black painted steel strips to meet the needs of different customers. Common specifications include different widths (such as 12.7mm, 16mm, 19mm, 25mm, 32mm, etc.) and thicknesses (such as 0.3mm to 0.9mm)
