### Product Description

#### Baler clamp

This baler clamp is designed for efficient and stable packing operations, described in detail below:  
 It is suitable for both blue and galvanized steel strips, both of which offer excellent corrosion resistance and strength to ensure a stable packing performance in a variety of environments.

Steel strip width: 19mm,  
 Steel strip thickness: 0.3-0.8mm,

Thickened bite: The bite part of the clamp is thickened to enhance the biting force, which can easily cope with various materials of packaged items to ensure the firmness and stability of the package.

Packing and fixing: Through the precise operation of the clamp and the strong biting force, the articles can be quickly and firmly packed, effectively preventing the loosening and damage of the articles during transportation or storage.

To sum up, this baler clamp with its high-quality material, reasonable specifications, supporting accessories and characteristic design, has become the ideal choice for all kinds of packaging operations, can easily cope with various packaging needs, improve work efficiency.

Model	SD82
Applicable steel strip width	19mm
Applicable straps Type	steel strip
