Product Description

tensioner

This baler tensioner is an efficient tool designed to meet a wide range of packaging needs, described in detail below:
 Steel belt material: The use of high-quality blue steel belt and galvanized steel belt, belt width: 9-19mm, steel belt thickness: 0.3-0.8mm, also suitable for open packing buckle.

Ratchet manual tightening: The ratchet design makes the manual tightening process easier and less labor, while ensuring that the steel strip is evenly and effectively tightened, improving the packaging efficiency.

Anti-slip gear: The tensioner is equipped with anti-slip gear inside, which not only improves the stability of the operation, but also effectively prevents the loosening or damage of the steel belt caused by slipping during the tensioning process.

Rotary tightening: The way of rotating tightening makes the packaging process more flexible and convenient, and the user can adjust the tightening force according to the need to ensure the best packaging effect.

In summary, this baler tensioner with its quality material, reasonable specifications, matching accessories and unique ratchet type manual tensioning and non-slip gear design, is the ideal choice for a variety of packaging operations. Whether it is for home use or industrial production, it can easily cope with various packaging needs and improve work efficiency.
