### Product Description

#### Semi-automatic baler

This baler is amazing! It has a super fast intelligent packaging function, only 1.5 seconds to complete the packaging, super efficiency! Moreover, its panel has been thickened to make it more durable. This high table baler is especially suitable for packing lighter loads, as it is designed so that you do not have to bend over. What's more, one machine can replace the workload of five people, which is really saving time and effort!

It is equipped with high-quality dual motors, and the control panel is also very user-friendly, so that you can operate more easily. Efficiency is stable, 24-hour operation does not burn the machine, so that you can operate more assured.

The work noise is also very low and will not cause any disturbance to you or your colleagues. Moreover, it has a wide range of uses and is suitable for various occasions.

It also supports PP packing tape with a width between 5-15.5mm and a thickness between 0.5-0.85mm, which is very convenient. The most important thing is that its load-bearing capacity is very strong, and the basic load-bearing capacity is about 400 pounds, which can fully meet your various needs.
