### Product Description

#### Semi-automatic baler

Let me tell you more about this excellent baler!

This high-platform design baler is ideal for handling lighter loads, so you don't have to bend over and greatly reduce the workload. What's more, it's extremely efficient, and a single machine can easily handle a workload that would otherwise require five people to complete.

It also supports a variety of specifications of PP packaging tape, width between 5-15.5mm, thickness between 0.5-0.85mm, to meet your different packaging needs. Moreover, its load-bearing capacity is very strong, and the basic load-bearing capacity is about 400 kilograms, ensuring that your goods are safe during transportation.

This baler uses smart packing technology, which can be packed in just 1.5 seconds, with amazing efficiency. Its panels are designed to be especially thick, ensuring the robustness of the machine.

It is equipped with high-quality dual motors to ensure the stability and durability of the work. The control panel is simple and easy to operate. Moreover, this baler can work steadily for 24 hours without interruption, and there will be no burning of the machine, so that you are more at ease.

Its noise control is very good, even in a busy work environment, it will not cause you any trouble. In addition, this baler is very versatile and can be used in a variety of occasions that need to be packed.
