Product Description

Mini intelligent inkjet printer

This mini printer is small but powerful and versatile! Whether it is a carton, plastic bag or bottle body, it can be easily coded, so that your product identification is more clear and professional.

Even more surprising, it also supports handwriting input! This means you can type as much text or graphics as you want, making the content more personalized. Moreover, the data can be easily exported for subsequent management and analysis. Multi-language support, but also let this mini printer to the world. No matter what country your customers are from, you can easily cope with it and let your products go to the international market.

The Bluetooth connection function makes the operation more convenient. You can remotely control this mini inkjet through mobile phones or computers and other devices to achieve wireless inkjet coding, which greatly improves work efficiency.

The comprehensive large screen and intelligent touch design make the operation more intuitive and simple. Even if it is the first time to use, it is easy to get started and make your work smoother.

Finally, a warm reminder: this product does not contain ink cartridges! This means that you need to buy your own cartridges to use. But rest assured, there are many quality cartridges on the market for you to choose from, so that your inkjet printer always keeps in good working condition.

Come and try this mini printer! It will be a great help to you in your work!
