Product Description

Our Product Introduction

Mini intelligent inkjet printer

This mini printer, is a modern production line of the right hand, with its full screen 2.4 inches of dazzling display effect and smart touch function, so that you can easily operate in the busy work.

It has a wide range of uses, whether it is a carton, plastic bag or bottle body, you can carry out accurate jet marking to meet your diversified production needs.

This mini printer also supports handwriting input, so you can be more flexible when printing code

It is worth mentioning that this mini printer also supports multiple languages, no matter what country your customers are from, you can easily meet their needs, so that your products are more competitive in the market. The Bluetooth connection function allows this machine to seamlessly connect with smart phones, tablets and other devices to achieve remote control and data transmission, making the work more efficient and convenient.

In addition, the full-screen design not only makes this mini printer look more stylish and atmospheric, but also makes it more intuitive and easy to use. The intelligent touch function allows you to operate more smoothly and naturally, without complicated key operation, you can complete various function Settings and inkjet operation with just one touch.
