Product Description

Mini intelligent inkjet printer

This mini inkjet printer opens a new chapter of intelligent inkjet with a full screen 2.4 inches of wonderful vision. Regardless of carton, plastic bag or bottle body, this mini printer can easily cope with the precise coding. Handwriting input allows you to have more freedom and creativity when printing code, so that each product shows your unique style. The data guided function makes subsequent management and tracking more convenient, helping you improve work efficiency and reduce labor costs.

In addition, this mini printer also supports multiple languages to meet the needs of the global market. Bluetooth connection allows you to seamlessly connect with smart devices anytime and anywhere, achieve remote control and data transmission, and make work more efficient and flexible. The perfect combination of comprehensive large screen and intelligent touch allows you to be more intuitive and convenient when operating, without complicated keys, and reach at a touch.

With the help of this mini printer, your production line will be revitalized. It not only improves the production efficiency, but also meets the diversified market demand. Whether large enterprises or small studios, they can benefit from the reduction of production costs and the improvement of product quality.

In short, this mini printer with its small, intelligent, efficient characteristics, has become a high-profile star product on the market. By choosing it, you are choosing a smarter, more efficient production future.
