Product Description

Mini intelligent inkjet printer

This mini inkjet printer opens a new chapter of intelligent inkjet with a full screen of 2.8 inches. Handwriting input allows you to have more freedom and creativity when printing code, so that each product shows your unique

style. The data guided function makes subsequent management and tracking more convenient, helping you improve work efficiency and reduce labor costs.

With the help of this mini printer, your production line will be revitalized. It not only improves the production efficiency, but also meets the diversified market demand.

The mini printer also supports multiple languages to meet the needs of the global market. Bluetooth connection function allows you to seamlessly connect with smart devices anytime and anywhere to achieve remote control and data transmission, making work more efficient,

In short, this mini printer with its small, intelligent, efficient characteristics, has become a high-profile star product on the market. By choosing it, you are choosing a smarter, more efficient production future.
