Our Product Introduction

## Product Description

### Mini intelligent inkjet printer

Leading the new trend of inkjet printing, this mini inkjet printer opens a double feast of vision and operation for you with a full screen 2.4 inches of dazzling large screen. Small and delicate body, but contains powerful functions, whether it is carton, plastic bag or bottle, can be easily controlled to achieve accurate coding.

Handwriting input function, so that your creativity and personality can be perfectly displayed in the jet code. Every inkjet code is an artistic creation, so that your products are different and more competitive in the market. At the same time, the data guidance function also makes you more convenient in the follow-up management, easy to achieve data traceability and statistics.

Multi-language support, let this mini printer become your bridge to the world. No matter where your customers come from, you can easily meet their needs and make your products shine in the international market. The Bluetooth connection function allows this machine to seamlessly connect with smart phones, tablets and other devices to achieve remote control and data transmission, making the work more efficient and convenient.

The perfect combination of comprehensive screen and intelligent touch control makes this mini printer more smooth and natural in operation. No need for tedious key operation, just a touch, you can complete a variety of function Settings and inkjet operation. This intelligent operation experience allows you to easily cope with busy work and enjoy the convenience and fun brought by technology.

In short, this mini printer has become the focus of attention in the market for its small and delicate, powerful and easy to operate characteristics. To choose it is to choose a more intelligent, efficient and personalized production future.
