

Orange 2.8 Inch Screen Smart Handheld Small Inkjet Machine Half Inch Food Packaging Production Date Coding Machine

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: Handheld full screen Mini 2.8 inches
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- System Language: Multilingual
- Count Sequence Number: Variable Serial Number 1-9 Digits
- Printing Distance: 5mm
- Printing Height: 2-12.7mm
- Number Of Print Lines: 1-4
- Maximum Power: 20W
- Stored Information: Built-in Memory Chip
- External Interface: Charging Interface
- Dimension: 107*47*175mm
- Weight: 200g
- Highlight: 2.8 Inch Screen Inkjet Machine, Food Packaging Production Date Coding Machine, Small Inkjet Machine

Product Description

Mini intelligent inkjet printer

1. Full screen interface, clear at a glance: 2.8-inch large full screen, clear interface layout, intuitive and easy to understand operation instructions. Whether novice or veteran operators, can quickly get started, to achieve efficient coding operations.
2. High-definition display technology, details show: high-definition display technology to ensure that the inkjet content is delicate, whether it is small characters or complex patterns, can be accurately displayed on the screen, the preview effect is highly consistent with the actual inkjet effect.
3. Intelligent handwriting recognition, unlimited creativity: The integrated advanced intelligent handwriting recognition system supports users to write or draw inkjet content directly on the screen, and the recognition accuracy is high, so that creativity and personality are fully displayed.
4. Modular handle design, flexible: The handle adopts modular design, can be disassembled or adjusted according to user needs and working environment, to achieve a more comfortable and flexible operating experience.
5. Surface and irregular object adaptability, widely compatible: the use of advanced surface inkjet technology, can easily cope with a variety of surface, irregular shape and small size object inkjet needs, widely used in packaging, manufacturing, logistics and other fields.
6. Multi-language intelligent switching, transnational communication barrier-free: Built-in multi-language intelligent switching system, support the global mainstream languages, to meet the needs of multinational enterprises and international markets, to promote global exchanges and cooperation.
7. Efficient data management system, worry-free information storage: equipped with efficient data management system, supporting the import, export, editing and backup of inkjet content, to ensure the security and traceability of information, improve work efficiency.
8. Long life battery pack, durable operation worry-free: The use of high-performance, long life battery pack, support long-term continuous operation, no frequent charging, to ensure the continuity and stability of coding operation.
9. Intelligent fault warning, easier maintenance: integrated intelligence

Our Product Introduction
