Product Description

Mini intelligent inkjet printer

With its fully automatic, compact design, this hand-held printer has become a useful tool in many industries. It not only supports handwriting input, but also provides multiple language options to meet the diverse needs of a global market. Whether in Chinese, English or many other languages, it is easy to print and make your product logo more international.

In the printing effect, this machine is excellent. It uses advanced printing technology to clearly and accurately leave a lasting imprint on a variety of materials. Whether it is cardboard, metal, plastic, wood or glass, it can be easily handled and the printing effect is satisfactory.

In addition, the hand-held inkjet printer also has a powerful function adjustment. The number of printing lines can be freely adjusted between 1-6 lines, allowing you to flexibly set according to your actual needs. At the same time, the counting sequence number function is also extremely practical, supporting 1-bit serial number variable, which provides great convenience for product traceability and management.

In short, this handheld printer with its automatic, small compact design, powerful functional adjustment, excellent printing effect and high-definition printing accuracy, has become a high-profile star product on the market.

Whether it is a large enterprise or a small workshop, it can benefit from the automation, efficiency and precision of product identification.
