### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: T980
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

### Product Specification

- System Language: Multilingual
- Count Sequence Number: Variable Serial Number 1-9 Digits
- Printing Distance: 2-5mm
- Printing Height: 2-25.4mm
- Number Of Print Lines: 1-6
- External Interface: USB, Charging Port, Photoelectric Port
- Stored Information: U Disk And This Machine
- Dimension: 240\*125\*145mm
- Weight: 0.95kg
- Screen Size: 5-inch Touch Screen
- Use Environment: 0 -40 Humidity 10%-80%
- Print Content: Date, English, Chinese Characters, Pictures, QR Code, Etc
- Printing Accuracy: 600DPI HD Resolution
- Highlight: Bar Code Handheld Inkjet Printer, 5-inch Touch Screen

### Product Description

#### Handheld intelligent inkjet printer

This lightweight handheld printer is a fully automatic, small coding device designed for modern production environments. It not only has a small and portable body, but also integrates advanced intelligent technology and user-friendly operation interface, making your product identification work easier and more efficient than ever. This hand-held printer supports handwriting input, allowing you to customize your product identity at will. At the same time, it also provides multi-language selection function, whether it is Chinese, English or other languages, can be easily printed to meet the needs of the global market.

In terms of material adaptability, this lightweight handheld printer also performs well. It can easily cope with carton, metal, plastic, wood, glass and other materials, spray printed text or pattern clear, lasting and not easy to fall off. This is thanks to the perfect combination of advanced printing technology and high-quality consumables to ensure that every printing can achieve the best results.

In addition, the hand-held inkjet printer also has a flexible printing line adjustment function. Users can freely set the number of printing lines between 1-6 lines according to the actual needs to meet the identification needs of different products. At the same time, the counting sequence number function is also extremely practical, supporting 1-9 digits of serial number variable, so that your product identification is more traceable and unique. In terms of printing accuracy, this lightweight handheld printer is also not to be underestimated. It uses a high-definition resolution of 600DPI, ensuring that each printing can present detailed, clear images and text. Whether it is small text or complex pattern, it can be perfectly presented, so that your product logo is more professional and exquisite.

In order to facilitate the user's connection and operation, the handheld inkjet printer is also equipped with a

Our Product Introduction

variety of external interfaces, including USB interface, charging port and photoelectric port. These interfaces not only make the device easier to connect and operate, but also give you more possibilities for expansion. You can easily connect the device to a computer or other device for data transfer, device charging, or interworking with other devices.

In short, this portable handheld printer with its small and portable body, advanced intelligent technology, user-friendly operating interface and excellent printing effect, has become a high-profile star product in the market. Choose it to make your production more efficient and convenient, while improving the quality and competitiveness of your products.
