Product Description

Handheld intelligent inkjet printer

The handheld printer supports handwriting input, making it easy to customize personalized logo content. At the same time, it also supports multi-language selection, whether it is Chinese, English or other languages, can be perfectly presented to meet the needs of the global market.

In the printing effect, this hand-held inkjet printer performs well. It can easily cope with carton, metal, plastic, wood, glass and other materials, spray printed text or pattern clear, lasting. The number of printing lines can be freely adjusted between 1-6 lines to meet the identification needs of different products.

In order to facilitate connection and operation, this handheld printer also provides a wealth of external interfaces, including USB interface, charging port and photoelectric port. These interfaces not only make the device easier to connect and operate, but also give you more possibilities for expansion.

The counting sequence number function is a highlight of this handheld inkjet printer. It supports 1-9 digit serial number variable, making your product identification more unique and easy to trace. This is of great significance for production management and quality control.

In addition, the handheld printer is equipped with a 4.3-inch touch screen, and the operation interface is simple and clear, so that you can easily get started. The high-definition resolution of 600DPI ensures fine, clear images and text for every print.

In short, this hand-held inkjet printer is an integral part of your production line with its efficiency, convenience and versatility. Choose it to make your product logo more professional and unique, enhance brand image and market competitiveness.
