Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: Q2L
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 440*280*180mm
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Width: 16-19mm
- Thickness: 0.4-1.2mm
- Applicable Straps Type: PET、PP
- Speed: 100-200mm/s
- Strapping Force: 400-5500N
- Voltage: 18V
- Capacity: 5.0Ah
- Weight: 3.4kg(N.W)+0.6kg(Battery)
- Highlight: LCD Display Screen Bundling Machine, Hot Melt Buckle Free Bundling Machine, High Tension Bundling Machine

Product Description

One click electric packaging machine

Electric baler, as an efficient and versatile packaging tool, is designed to meet the packaging needs of various industries. This product can be widely used in PET plastic steel tape and PP tape, support bandwidth range between 16-19mm, the thickness can be flexibly adjusted within 0.4-1.2mm, this feature makes it able to meet the packaging needs of different materials and different sizes.

In terms of tensile performance, this electric baler shows excellent performance, with a large tensile force of up to 5500N, which is enough to cope with a variety of heavy packaging, ensuring the firm and safe packaging. At the same time, it is equipped with 5000mAh large-capacity battery, excellent battery life, and can continuously pack 600 under full charge, which greatly improves work efficiency and reduces the trouble of frequent charging.

In order to adapt to the packaging needs in different scenarios, the electric baler specially designed three modes can be switched: AUT automatic mode, suitable for fast and efficient packaging operations; SEM semi-automatic mode provides more operational flexibility; MAN manual mode allows users to accurately control the packaging process under special circumstances. The combination of these three modes enables the electric baler to perform at its best in a variety of environments.

In addition, it is also equipped with an LCD display screen, the operation interface is simple and intuitive, users can easily view the parameters and status of the baler, so that the operation is more convenient and efficient. Whether in heavy industries such as paper, aluminum and steel, or in light industries such as wood and cotton mills, this electric baler can be an indispensable packaging tool with its excellent performance and wide range of applications.

width	16-19mm
Thickness	0.4-1.2mm
