Product Description

On-line inkjet printer

On-line inkjet printers, as an indispensable part of modern automated production lines, have won wide recognition for their excellent performance and efficient operation. Designed for assembly line work, this inkjet printer can greatly improve production efficiency and ensure that every product can be accurately and clearly identified during the production process. It uses advanced technology, can easily cope with the printing needs of carton, metal, plastic, wood, glass and other materials, whether it is smooth surface or rough texture, can show the perfect printing effect. The 4.3-inch HD screen makes the operation interface more intuitive and clear, and users can easily view and set various parameters, which greatly improves the convenience of operation.

At the same time, this printer supports multi-language display to meet the needs of global production. The high-definition resolution of 600DPI ensures the precision and clarity of the printed content, whether it is the date, English, Chinese characters, or pictures, two-dimensional code and other complex information, can be perfectly presented.

In addition, its printing height is adjustable from 2-12.7mm to adapt to the packaging needs of different sizes and specifications. Various external ports, including USB ports, charging ports, and optical ports, facilitate data transmission and device maintenance.

In general, this online inkjet printer with its comprehensive functions and excellent performance, has become the right-hand man on the automated production line, providing a strong guarantee for the production efficiency and product quality of enterprises.
