

Q4 One-Button Electric Baler PET / PP Plastic And Steel Belt Automatic Packing Hot Melt Bundling Machine

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: Q4
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 44.5*28.5*18.5cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Width: 13-16mm
- Thickness: 0.4-1.2mm
- Applicable Straps Type: PET、PP
- Speed: 100-200mm/s
- Strapping Force: 400-3200N
- Voltage: 14.4V
- Capacity: 4.0Ah
- Weight: 2.9kg
- Highlight: Automatic Packing Hot Melt Bundling Machine, PET PP Plastic Bundling Machine, Steel Belt Bundling Machine

Product Description

One click electric packaging machine

Q4 electric baler, with its excellent performance and a wide range of applications, has become the first choice for many industry users. This baler has a strong pulling force system, the pulling force range is adjustable between 400-43200N, can meet the packaging needs of different materials, different sizes of goods, to ensure that each packaging is firm and reliable. The electric baler is especially suitable for the packaging belt of PET and PP. The width of the belt is 16mm, and the thickness is between 0.4-1.2mm. This design not only improves the flexibility of the packaging, but also ensures the stability of the packaging effect. Whether used for the fixation of light items or the protection of heavy goods, the Q4 electric baler can easily cope.

In terms of battery life, the electric baler is built with a 4,000mah large-capacity battery, which can support about 600 continuous packaging operations in a single charge, greatly improving work efficiency. At the same time, its fast charging technology ensures that the battery can be fully charged within 90 minutes, so that you can continue to use the device without waiting for a long time.

On the operation interface, the electric baler adopts an advanced CNC display screen, which can display the packaging parameters in real time, so that you can grasp the equipment status at any time, and ensure that every packaging is accurate. In addition, the electric baler also has an ultra-light body design, which is easy to carry and operate, and can be flexibly used even in small Spaces. This makes it the ideal choice for users in many industries such as brick factories, aluminum, steel, cotton mills, logistics, etc. Whether it's for quick packing on a production line or securing goods in a warehouse, the Q4 electric baler offers you an efficient and convenient packing experience.

width	13-16mm
