Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: Q4
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 44.5*28.5*18.5cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Width: 13-16mm
- Thickness: 0.4-1.2mm
- Applicable Straps Type: PET、PP
- Speed: 100-200mm/s
- Strapping Force: 400-3200N
- Voltage: 14.4V
- Capacity: 4.0Ah
- Weight: 2.9kg
- Highlight: PP Packing Electric Baler, High Tension Electric Baler, Non-Buckle Electric Baler

Product Description

One click electric packaging machine

Q4 Electric baler, an efficient, powerful and portable professional packing tool, designed to meet the complex packaging needs of various industries. Its most striking feature is its strong adjustable pull, ranging from 400N to a staggering 43200N, ensuring a solid and reliable packing effect for both small and heavy pieces.

This baler is specially designed for PET and PP two commonly used packaging belts, the width of the belt is unified and accurately controlled at 16mm, the thickness is between 0.4mm and 1.2mm, this design not only improves the flexibility and applicability of the packaging, but also ensures the perfect coordination between the packaging belt and the machine, thus improving the efficiency and effect of the packaging.

The electric baler also uses an advanced CNC display, which can clearly display the packaging parameters and machine status, so that you can keep track of the packaging progress and equipment conditions at any time, to ensure that every packaging is accurate. This intelligent design not only improves the accuracy of packaging, but also makes the operation easier and more intuitive.

In terms of battery life, the electric baler is equipped with a 4,000mah large-capacity battery, which can support about 600 continuous packaging operations with a single charge, whether it is daily production line packaging or emergency logistics delivery, it can be easily handled without frequent charging, which greatly improves work efficiency.

It is worth mentioning that the electric baler has an ultra-light body design, making it extremely convenient to carry and operate. Whether it is in a small corner of the warehouse or on a busy production line, it can be easily used to bring more convenience and efficiency to your packing work.

In short, Q4 electric baler with its strong tensile force, wide applicability, excellent endurance and intelligent operation design, has become a brick factory, aluminum, steel, cotton mills, logistics and other industries of the user's trust choice. It will make your packing experience more efficient, convenient and reliable than ever before.
