

MH-SDML-95 Semi-Automatic Baling Machine Express Carton Food Packaging Hot Melt Friction

Our Product Introduction

for more products please visit us on setupack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: MH-SDML-95
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 box per 10days

Product Specification

- Power: AC100-220V 50/60Hz 0.25kW
- Packing Speed: 3 Seconds/strap
- Tension Range: 5-50kg
- Workingtable Height: 450mm
- Applicable Straps Type: PP Strap
- Pp Strap Specification: Width 6~15mm,thickness 0.5-0.85mm
- PP Strap Spool: Inner Dia.200-210mm Outer Dia.400-450mm
- Machine Dimension: L1455mmxW545mmxH450mm
- Highlight: Hot Melt Friction Baling Machine, Semi-Automatic Baling Machine, Express Carton Baling Machine

Product Description

Semi-automatic baler

Semi-automatic bundling machine is an advanced equipment designed to meet the needs of modern packaging, and its excellent performance and wide range of applications have made it highly favored in the market. This machine is mainly suitable for PP packaging tape, width range between 6 to 15 mm, thickness between 0.5 to 0.85 mm, this wide compatibility makes it can adapt to different industries and different packaging needs.

In terms of strapping speed, this semi-automatic strapping machine shows excellent performance. This efficient speed of only 3 seconds per bundle greatly improves work efficiency, especially for places that need to deal with a large number of packaging tasks, which is undoubtedly a huge advantage. Whether it is warehouse management, food processing or logistics distribution, a large amount of packaging work can be completed in a short time, thus saving time and labor costs.

In terms of operation interface, the machine adopts a simple and clear design, so that users can easily get started. The button layout on the simple operation panel is reasonable, and the function identification is clear, even the personnel without operating experience can quickly grasp the use of the method. This humanized design not only improves the ease of operation, but also reduces the failure rate caused by misoperation.

The use of semi-automatic bundling machine is very wide, covering almost all the areas that need to be packaged and fixed. In the field of warehousing, it can effectively fix and protect various types of items, ensuring that no damage or displacement occurs during storage and transportation. In the food processing industry, it ensures food hygiene and safety while improving the overall packaging quality of products. In terms of logistics distribution, semi-automatic bundling machine has played a huge role, it can help logistics enterprises quickly and accurately complete the packaging and fixing of goods, improve transportation efficiency and safety.

In summary, this semi-automatic bundling machine with its excellent performance, a wide range of application areas and easy operation, has become the preferred equipment for packaging operations in many industries. efficiency, versatility and ease of operation.

Model number	MH-SDML-95
Power	AC100-220V,50/60Hz,0.25kW
Packing speed	3 seconds/strap
Tension range	5-50kg
Workingtable height	450mm
Applicable straps Type	PP strap
pp strap specification	width 6~15mm,thickness 0.5-0.85mm
PP strap spool	inner dia.200-210mm outer dia.400-450mm
Machine dimension	L1455mmxW545mmxH450mm
Weight	90kg
