

## GSE32 Electric Steel Belt Tensioner Large Pull 6000N Large Capacity Battery 4000mh

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: GSE32
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 49\*44\*16cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

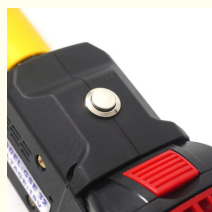

### Product Specification

- Applicable Strapping Tape Width: 32mm
- Applicable Strapping Tape Thickness: 0.8-1.2mm
- Applicable Straps Type: Steel Strip
- Tension Force: 6000
- Battery Capacity: 4.0Ah
- Charging Time: 50-60 Minutes
- Net Weight(N.W.): 4.21kg
- Package Size: 434\*113\*108mm
- Highlight: 4000mh Electric Steel Belt Tensioner, 6000N Electric Steel Belt Tensioner, Large Pull Electric Steel Belt Tensioner

### Product Description

#### Electric split steel belt baler

The electric split steel belt baler is an indispensable and efficient packing tool in the modern industrial field. This machine has won the favor of many enterprises with its unique separate design, powerful packaging ability and convenient operation.

The tensioner uses a precise mechanical structure and a powerful motor drive, which can quickly pull the steel strip tight and secure it to the packaged items. The tension force reaches 6000N, making the packaging process faster and more efficient. At the same time, the design of the tensioner is also very humanized, and the operator can complete the tensioning action with only a slight press, which greatly reduces the work intensity.

In order to meet the packaging needs of different enterprises, this electric split steel belt baler is also especially suitable for steel belts with a width of less than 32mm and a thickness of 0.8-1.2mm. This design enables it to be widely used in many fields, such as brick factories, aluminum factories, steel markets and logistics companies. Whether it is the packaging of small parts or the fixation of large heavy items, this baler provides a stable and reliable solution.

In addition to powerful packing capabilities, this electric split steel strip baler offers excellent portability and durability. Its compact structure and light weight make it easy for the operator to carry and move. At the same time, the equipment uses high-quality materials and advanced manufacturing processes, making it able to withstand a variety of harsh environments and long working loads during use.

In addition, the baler is also equipped with a 4000mAh large-capacity battery to ensure that the equipment can maintain stable performance and lasting power under continuous operation. The battery charging speed is fast, and it can be filled in only 50-60 minutes, which greatly improves the work efficiency.

Our Product Introduction

In terms of after-sales service, we always adhere to the customer-centric principle to provide customers with timely and professional technical support and maintenance services. No matter you encounter any problems or difficulties during use, we will solve them for you as soon as possible to ensure that your equipment is always in good working condition.

In short, the electric split steel belt baler with its unique split design, powerful packaging capabilities, convenient operation and excellent portability and durability, has become an indispensable and efficient packaging tool in the modern industrial field. If you are looking for a reliable packaging device, consider this electric split steel belt baler.

Model number	GSE32
width	32mm
Thickness	0.8-1.2mm
Appcable Straps Type	Steel strip
Tension force	6000
Battery Capacity	4.0Ah
Charging time	50-60 Minutes
Net weight (n.w.)	4.21kg
