

## GSE32 Electric Split Steel Belt Baler Suitable For Steel Belts Of Various Widths And Thicknesses

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: GSE32
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 49\*44\*16cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

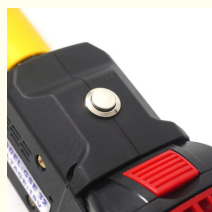

### Product Specification

- Applicable Strapping Tape Width: 32mm
- Applicable Strapping Tape Thickness: 0.8-1.2mm
- Applicable Straps Type: Steel Strip
- Tension Force: 6000
- Battery Capacity: 4.0Ah
- Charging Time: 50-60 Minutes
- Net Weight(N.W.): 4.21kg
- Package Size: 434\*113\*108mm
- Highlight: Electric Split Steel Belt Baler, Various Widths Steel Belt Baler, Steel Belt Baler

### Product Description

#### Electric split steel belt baler

The electric split steel belt baler is an innovative work in the field of modern industrial packaging. Its split design not only makes the operation more flexible and convenient, but also significantly improves the packaging efficiency and stability. This machine with its excellent performance, a wide range of applications and high-quality after-sales service, won the trust and praise of many enterprises.

The tensioner section is equally impressive. It uses advanced electric drive technology, which can quickly pull the steel belt tight and secure it to the packaged items in a short time. The tension force is up to 6000N, ensuring that the packaged items are stable and reliable, and are not easy to loose or fall. At the same time, the operation of the tensioner is also very simple, and the entire packaging process can be completed with just one click, which greatly improves the work efficiency.

In order to meet the packaging needs of different enterprises, this electric split steel belt baler is also specially designed with a variety of specifications of adapters, which can be adapted to a variety of steel belts within 32mm width and 0.8-1.2mm thickness. This design enables it to be widely used in brick factories, aluminum factories, steel markets, logistics companies and other fields to meet the packaging needs in a variety of complex environments.

In addition to powerful packing capabilities, this electric split steel belt baler offers excellent portability and durability. Its compact structure and light weight make it easy for the operator to carry and move. At the same time, the equipment adopts high-quality parts and advanced manufacturing processes, making it able to withstand a variety of harsh environments and long working loads during use, thereby extending the service life of the equipment.

Our Product Introduction

In terms of battery life, the baler is equipped with a 4000mAh large-capacity battery to ensure that the equipment can maintain stable performance and lasting power under continuous operation. The battery charging speed is fast, and it only takes 50-60 minutes to be full, which greatly reduces the waiting time and improves work efficiency.

In addition, we also attach great importance to the quality of after-sales service. We have a professional technical team, can provide customers with timely, professional technical support and maintenance services. No matter you encounter any problems or difficulties during use, we will solve them for you as soon as possible to ensure that your equipment is always in good working condition.

To sum up, the electric split steel belt baler has become a leader in the field of modern industrial packaging with its excellent performance, a wide range of application fields, high-quality after-sales service and convenient operation. If you are looking for an efficient and reliable packaging device, consider this electric split steel belt baler.

Model number	GSE32
width	32mm
Thickness	0.8-1.2mm
Appcable Straps Type	Steel strip
Tension force	6000
Battery Capacity	4.0Ah
Charging time	50-60 Minutes
Net weight (n.w.)	4.21kg
