

## GSE/DYB32 Electric Split Steel Belt Baler For 4000mAh Large-Capacity Batteries Of Various Specifications

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: GSE/DYB32
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 49\*44\*16cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

### Product Specification

- Applicable Strapping Tape Width: 32mm
- Applicable Strapping Tape Thickness: 0.8-1.2mm
- Applicable Straps Type: Steel Strip
- Tension Force: 6000
- Battery Capacity: 4.0Ah
- Charging Time: 50-60 Minutes
- Net Weight(N.W.): 7.54kg
- Package Size: 434\*113\*108mm
- Highlight: 4000mAh Electric Split Steel Belt Baler, Electric Split Steel Belt Baler

### Product Description

#### Electric split steel belt baler

Electric split steel belt baler, designed for efficient and convenient industrial packaging. Its split structure allows for more flexible operation and ADAPTS to a variety of packaging scenarios. The latch and tensioner are independently designed and work together to ensure a fast and stable packing process.

The locking device is one of the core components of the machine and is made of a rugged material that securely locks the steel belt to prevent items from loosening or falling apart during transportation. Its internal mechanical structure is precise, can be adapted to a variety of specifications of steel tape, to meet different packaging needs.

The tension device uses electric drive technology, which is easy to operate and can quickly pull the steel strip to the required tension. This design not only improves the packaging efficiency, but also reduces the labor intensity of the operator. At the same time, the tension device is equipped with a tension adjustment function, which can be flexibly adjusted according to the characteristics of different items to ensure the packaging effect is more ideal.

In order to enhance the portability and durability of the machine, the electric split steel strip baler uses a lightweight design and high-quality materials. The overall structure is compact, light weight, easy to carry and move. At the same time, the equipment has undergone strict manufacturing process and quality testing to ensure that it can maintain stable performance and good durability during long-term use.

In terms of battery life, the baler is equipped with a high-performance lithium battery pack to support long-term continuous operation. The battery pack has a fast charging function, which greatly reduces the charging time and improves the work efficiency. This design enables the electric split strip baler to perform well even outdoors

Our Product Introduction

or in working environments away from power sources.

In addition, we attach great importance to after-sales service and are committed to providing customers with timely and professional technical support and maintenance services. Whatever problems you encounter during use, we will solve them for you as soon as possible to ensure that your equipment is always in top condition. In short, the electric split steel belt baler with its efficient, convenient, flexible characteristics, has become the preferred tool in the packaging process of many enterprises. If you are looking for a reliable packaging device, consider this electric split steel belt baler.

Model number	GSE/DYB32
width	32mm
Thickness	0.8-1.2mm
Appcable Straps Type	Steel strip
Tension force	6000
Battery Capacity	4.0Ah
Charging time	50-60 Minutes
Net weight (n.w.)	7.54kg
