

Convenient CNC Panel Design One-Click Electric Baler For Simple And Intuitive Operation

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: ZYQ-16
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 44.5*28.5*18.5cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Width: 13-16mm
- Thickness: 0.4-1.2mm
- Applicable Straps Type: PET、PP
- Speed: 100-200mm/s
- Strapping Force: 400-3200N
- Voltage: 14.4V
- Capacity: 4.0Ah
- Weight: 2.9kg
- Highlight: Simple Electric Baler, One-Click Electric Baler, Intuitive Operation Electric Baler

Product Description

One click electric packaging machine

The one-button electric baler is an efficient, lightweight and powerful packaging equipment in the field of modern industry and logistics.

First of all, its ultra-light fuselage design is a highlight, weighing only 2.9kg, making it easy for the operator to carry and operate for long periods of time, greatly reducing the workload.

In terms of applicable packaging belts, this baler is compatible with both PET and PP materials, the width of the packaging belt ranges from 13-16mm, and the thickness is between 0.4-1.2mm, which ensures that it can cope with various packaging needs and improve the versatility of the equipment.

Tension force is one of the important indexes to measure the performance of baler. This one-button electric baler has an adjustable tension of 400-3200N, which can meet the packaging needs of different materials and sizes, ensuring that the packaging effect is both firm and beautiful.

In terms of battery life, the machine has a built-in 4000mAh large-capacity battery, the charging time is only 90 minutes, and 600 packaging belts can be packed after full charge, which greatly improves the work efficiency and reduces the interruption caused by insufficient power.

On the operation interface, the one-button electric baler adopts the CNC panel design, the interface is simple and intuitive, and the operation is easy. It provides manual, semi-automatic and fully automatic three modes, users can switch freely according to the actual needs, this design not only improves the flexibility of operation, but also meets the packaging needs in different scenarios.

In the field of application, this baler shows a high degree of universality. Whether it is the packaging of heavy materials such as aluminum and steel, or the fixing of goods in light industries such as cotton mills and wood, or

Our Product Introduction

the packaging of goods in the logistics industry, it can provide efficient and reliable solutions. To sum up, the one-click electric baler has become an indispensable and efficient packaging tool in the industrial and logistics fields with its light body, wide compatibility, strong tension, long endurance, flexible operation mode and a wide range of applications.

width	13-16mm
Thickness	0.4-1.2mm
Appcable Straps Type	PET,PP
Speed	100-200mm/s
Strapping Force	400-3200N
Battery Voltage	14.4V
Battery Capacity	4.0Ah
Charging time	About 90 Minutes
Net weight (m.w.)	2.9kg
