

Versatile Packaging with Handheld Electric Strapping Tool Supports PET and PP Material

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: DD163U
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 480*280*220mm
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Applicable Strapping Tape Width: 16-19mm
- Applicable Strapping Tape Thickness: PET 0.5-1.0mm PP 0.6-1.0mm
- Applicable Straps Type: PET/PP
- Tension Speed: 225mm/s
- Strapping Force: 600-4000N Adjustable
- Battery Voltage: 14.4V
- Battery Capacity: 4.0Ah
- Charging Time: About 60 Minutes
- Net Weight(N.W.): 3.8kg
- Package Size: 48*28*22cm
- Highlight: Large Tensile Force Handheld Electric Baler, 4000N Handheld Electric Baler

Product Description

Handheld electric storage baler

As an efficient tool designed for modern industrial packaging needs, the handheld storage baler is playing an important role in many industries such as aluminum processing, steel manufacturing, cotton spinning production, brick manufacturing and logistics transportation with its excellent performance and convenient operation experience.

The baler supports a wide range of tape sizes, including PET and PP materials, with widths ranging from 16mm to 19mm and thicknesses ranging from 0.5mm to 1.0mm to meet the diverse choices of different industries and different packaging needs. Whether it is light materials or heavy goods, the handheld storage baler can provide stable and reliable packaging results.

In terms of performance, the machine shows outstanding strength. Its binding force is up to 4000N, and it can be flexibly adjusted between 600N and 4000N according to actual needs, ensuring the firmness and safety of the packaging. This feature makes the handheld electric storage baler especially suitable for occasions with high packaging strength requirements, such as the fixing and protection of heavy goods.

Our Product Introduction

In order to enhance the user experience, the machine is also equipped with an intelligent CNC display. This design allows users to intuitively understand the working state of the machine, packaging parameters and remaining power and other important information, so as to more accurately control the packaging process. At the same time, the 4000mAh large-capacity battery guarantees a long time of battery life, and it only takes about 60 minutes to be fully charged, which greatly improves the work efficiency.

In addition, we know the various needs of users in the process of use, so we provide intimate accessories and services. With the purchase of the handheld power storage baler, users will get a detailed product manual to quickly get started and make full use of the functions of the machine. At the same time, we also included a practical kit and spare batteries to ensure that users can quickly find a solution when they encounter any problems, maintaining continuity and efficiency of work.

In short, the handheld power storage baler has become the preferred tool for many industry users with its wide applicability, excellent performance, intelligent design and thoughtful spare parts service. Whether it is a manufacturing enterprise pursuing efficient production, or a logistics company needing to ensure the safety of goods, you can get a satisfactory experience from this machine.

width	16-19mm
Thickness	PET:0.5-1.0mm PP:0.6-1.0mm
Appcable Straps Type	PET/PP
Speed	225mm/s
Strapping Force	600-4000N
Battery Voltage	14.4V
Battery Capacity	4.0Ah
Charging time	About 60 Minutes
Net weight (n.w.)	3.8kg(Battery included)
