Product Description

JD13/16 Electric strapping machine

The JD13/16 electric baler is an efficient and versatile packaging tool with the following features:
 The baler has a strong pulling force performance, the maximum pulling force can reach 2800N, and the pulling force range can be freely adjusted within 600-2800N, to meet different packaging needs, to ensure the robustness and safety of packaging.
 In the application of packaging belt, JD13/16 electric baler compatible with PET and PP two kinds of material packaging belt, packaging belt width applicable range of 13-16mm, thickness applicable range of 0.4-1.2mm, widely suitable for a variety of specifications packaging belt, improve the flexibility and applicability of packaging.
 In order to ensure continuous and efficient work, the baler is equipped with a 4000mAh large-capacity battery, which only takes 90 minutes for a single charge, ensuring long-term use needs, reducing charging waiting time and improving work efficiency.
 JD13/16 electric baler has a wide range of uses, suitable for the packaging and fixing of aluminum, steel and other metal materials, but also suitable for the packaging and protection of goods in brickworks, cotton mills, wood and other industries, while also playing an important role in the logistics industry, for express delivery, packaging and transportation of goods, is an indispensable packaging tool for many industries.
 In addition, this product is complete in standard, and accessories such as instructions, chargers, and kits can be obtained by purchase, which is convenient for users to quickly start operation, and ensure the convenience of daily maintenance and use.
 In summary, the JD13/16 electric baler with its strong tensile force, wide applicability, efficient battery life and perfect standard accessories, has become the preferred tool for packaging operations in various industries.
