

## JD13/16 Electric Strapping Tool for PET and PP Packaging Belt 2800N Tensile Performance 4000mAh Battery Wide Application

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: JD13/16
- Minimum Order Quantity: 1 stage
- Price: \$270 one stage
- Packaging Details: 443\*280\*180mm
- Delivery Time: 10-15 work days
- Payment Terms: MoneyGram, Western Union, T/T, D/P, D/A, L/C
- Supply Ability: 100+box+10days

### Product Specification

- Applicable Strapping Tape Width: 13-16mm
- Applicable Strapping Tape Thickness: 0.4-1.2mm
- Applicable Straps Type: PET
- EnterStrap Mode: 2-5S
- Strapping Force: 600-2800N Adjustable
- Battery Voltage: 11.1V
- Battery Capacity: 4.0Ah
- Charging Time: About 90 Minutes
- Net Weight(N.W.): 2.8kg
- Package Size: 443\*280\*180mm
- Highlight: Friction Welding Electric Strapping Tool, Adjustable Tension Force Electric Strapping Tool, 11.1V Electric Strapping Tool

### Product Description

#### JD13/16 Electric strapping machine

JD13/16 electric baler is an excellent performance, easy to operate packaging equipment, the following is its detailed product description:

In terms of packaging belt compatibility, JD13/16 electric baling machine supports the packaging belt of PET and PP two mainstream materials, the width of the application range is 13-16mm, the thickness can reach 0.4-1.2mm, to meet the needs of diverse packaging belt specifications, improve the flexibility and convenience of packaging operations.

The baler has excellent tensile performance, with a maximum tensile value of up to 2800N, and can be flexibly adjusted in the range of 600-2800N to adapt to the packaging needs of different materials and sizes, ensuring that the packaging effect is both strong and reliable.

In order to ensure the long-term, high-strength packaging operation needs, the baler is built with a 4000mAh large-capacity battery, which can be filled in only 90 minutes for a single charge, ensuring that users do not need to charge frequently during use, improving work efficiency.

JD13/16 electric baler has a wide range of applications, not only for the packaging and fixing of aluminum, steel and other metal materials, but also widely used in brick factories, cotton mills, wood processing and other industries, while also playing an important role in the field of logistics, helping express delivery, cargo transportation and other links of packaging operations more efficient and convenient.

In addition, the product is also equipped with a detailed manual, charger and practical kit and other standard accessories, easy to get started with the operation, and ensure the daily maintenance and maintenance of the convenience. These thoughtful designs make the JD13/16 electric baler a trusted packaging assistant for users.

Our Product Introduction

In summary, the JD13/16 electric baler is the preferred solution for packaging operations in various industries due to its excellent tensile performance, wide range of packaging compatibility, long battery life and perfect standard accessories.

Strapping Qualities	Polyester (PET) and Polypropylene (PP) plain and embossed
Strapping Dimensions	width 13.0 – 16.0 mm / ½ - ⅝" thickness 0.40 – 1.2 mm / .016 – .047"
Weight incl. 4.0 Ah battery	3.05KG/6.72lbs
Tool size with 4.0 Ah battery	L340 x W130 x H118 mm / 13.4 x 5.1 x 4.6"
Type of seal	Friction welding
Average seal strength	approx. 75% (dependent on the strap quality)
Tension force	600 – 2800 N / 135 – 720 lbs (adjustable)
Tension speed	100 – 200 mm/s / 3.94 – 7.87 inch/s
Power supply	Battery Li-Ion 16.8-21 VDC / 4.0 Ah
