Product Description

Anhui Zhuoyu Industrial Manufacture Co., Ltd.

Spiral stainless steel cable tie pliers

Room 101, 1st Floor, Building A3, Innovation industrial Park, 800 Wangjiang WestRoad, High-tech Zone, Hefei, Anhui, China.

Stainless steel cable tie pliers Product description

In a variety of fastening scenarios, a quality tool can significantly increase productivity. Our stainless steel cable tongs are designed for efficient work.

This cable tie clamp is suitable for a wide range of 13-25mm wide stainless steel cable ties, covering almost all types of common cable tie specifications in daily work. Whether it is fine work in a small space or high intensity fixation in a large project, it can handle it easily. For example, in the electronics manufacturing shop, it can accurately fix the thin internal cables; In bridge construction sites, it can firmly bind large steel structural components.

The products are made of special steel with ultra-high strength and excellent wear resistance. This makes the cable tie pliers durable even under frequent use, greatly reducing tool loss and replacement costs. It can operate stably and reliably even in extremely harsh working environments such as high temperature, humidity or strong corrosion.

From the performance point of view, its tightening force is very strong, can firmly fix the stainless steel cable tie, ensure that the bound object is firm and reliable, and effectively improve the stability of the work result. At the same time, the operation is simple and convenient is a highlight of it, without complex training, novices can quickly get started, master the operation skills, greatly improve work efficiency, to avoid the waste of time caused by cumbersome operation.

If you are looking for a high performance, practical and convenient stainless steel cable tie pliers, then this product is definitely for you, it will bring a new efficient experience to your work.
