Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: H19
- Minimum Order Quantity: 1 set
- Price: To be discussed
- Packaging Details: 27.5*16*7CM
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Model: H19
- Strip Width: 16-19mm
- Strip Thickness: 0.8mm
- Large Tightening Force: 200-2800N
- Color: Blue
- Total Weight: 1.07kg
- Highlight: Plastic Steel Belt Manual Strapping Tools, Easy Operate Manual Strapping Tools, Strong Tension Manual Strapping Tools

Product Description

Manual packaging machine

Manual plastic steel belt tensioner, specially built for 16-19mm wide plastic steel belt, with excellent performance to meet all kinds of strapping needs.

The core highlight of this tensioner is its strong tension. The unique mechanical transmission design allows users to easily apply large tension and quickly tighten the plastic steel belt. Whether it is heavy steel, soft aluminum, or fluffy cotton bags, it can achieve tight bundling. The operation process is smooth and labor-saving, greatly saving time and labor costs, and it is not easy to feel tired for a long time, significantly improving work efficiency.

With the matching clamp, it highlights its professionalism. When the tensioner tightens the plastic steel belt to the ideal state, the clamp can be quickly and accurately fixed, with a strong bite force, to ensure that the plastic steel belt in the subsequent transportation, storage, plus double insurance for the bundling effect.

Its wide range of uses, in the steel industry, in the face of large steel bundling problems, tensioner and clamp closely, firmly fixed plastic steel belt, to ensure that the steel in the lifting, long-distance transport does not loose shift; In aluminum processing enterprises, for aluminum whose surface is easy to scratch, they can achieve stable binding without damaging the surface of aluminum and ensure product quality; In the cotton mill, the fluffy cotton bales work together to become compact and structured for subsequent handling, storage and sale.

Manual plastic steel belt tensioner and matching clamp, with 16-19mm plastic steel belt accurate adaptation, strong tension and bite force, as well as a wide range of uses, become the steel, aluminum, cotton and other industries efficient strapping reliable choice, to provide a solid guarantee for your production process.
