

L-KZL32 Flexible And Widely Applicable Pneumatic Strapping Tensioner For Different Industries

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: L-KZL32
- Minimum Order Quantity: 1 set
- Price: To be discussed
- Packaging Details: 40.5*29*19cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Model Number: L-KZL32
- Specification: 19-32mm
- Breadth: 0.8*1.2mm
- Use Air Pressure: 0.4-0.6Mpa
- Tension Force: 8500N
- Highlight: 32mm Pneumatic Strapping Tensioner, L-KZL32 Pneumatic Strapping Tensioner, 8500N Pneumatic Strapping Tensioner

Product Description

Pneumatic split baler

In the field of industrial packaging, efficiency, precision and reliability are the keys to success. Our pneumatic split balers, with tensioner and latching machine, are an advanced piece of equipment designed for high strength packing needs.

Product core advantages:

Efficient packing saves time

Pneumatic drive design, connected to the air pump after the applicable air pressure of 0.4-0.6Mpa, simple and convenient operation. The tightening speed of the steel belt is only 5 seconds, which greatly improves the work efficiency, especially suitable for high-intensity assembly line work.

Strong tension, stable and reliable

The tension force of up to 8500N ensures that the steel strip is tightly fitted to the cargo, providing a firm packing effect even in the face of heavy materials, effectively preventing the cargo from loosening or damage during transportation.

Widely applicable and flexible

It is suitable for 19-32mm wide, 0.8-1.2mm thick steel belt, which can meet the packaging needs of different industries and different specifications. Whether it is steel, aluminum and other metal materials, or cotton spinning, logistics and other industries of goods, can easily cope.

Durable, stable performance

Made of high quality materials, strong structure, can adapt to high intensity working environment, ensure long-term stable operation, is the ideal choice for industrial packaging.

Application scenario:

Steel, aluminum, cotton mills, logistics companies and other industries packaging goods

Why choose our pneumatic split balers

Our Product Introduction

for more products please visit us on setuopack.com

Efficient and time-saving: fast tightening and locking, significantly improving work efficiency.
Solid and reliable: strong tension to ensure the packaging firm, to ensure the safety of goods.
Economical and practical: Split design reduces maintenance costs, strong durability and high return on investment.
Widely applicable: to meet the packaging needs of a variety of industries and materials, strong flexibility.
Whether it is to increase productivity or ensure the safe transportation of goods, our pneumatic split balers are the ideal choice for you. Contact us today for more product information and exclusive quotes to make your business more efficient and reliable!

Model number	L-KZL32
specification	19-32mm
use air pressure	0.4-0.6Mpa
breadth	0.8*1.2mm
Tension force	8500N
Net weight (m.w.)	4.8kg
