

W-KZS32mm Pneumatic Packing And Strapping Machine Steel Belt Clamping Capacity 16850N

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: L-KZS32
- Minimum Order Quantity: 1 set
- Price: To be discussed
- Packaging Details: 40.5*30.5*17cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Model Number: W-KZS32
- Specification: 32mm
- Breadth: 0.8*1.2mm
- Use Air Pressure: 0.4-0.6Mpa
- Bear The Tension: 16.85KN
- Highlight: 16850N Pneumatic Packing And Strapping Machine
, Pneumatic Packing And Strapping Machine

Product Description

Pneumatic split baler

The high performance pneumatic split baler is an efficient tool designed for industrial packaging and has won wide market recognition for its superior performance and easy operation.

It can easily cope with 19-32mm steel tape, ensuring tightness and firmness during packaging. Whether used for heavy machinery, construction materials or other large items, this baler delivers exceptional packing results.

Its air pressure range is 0.4-0.6Mpa.

The tightening speed of the steel belt reaches $\geq 5\text{m/min}$, which significantly improves work efficiency and is especially suitable for production lines or logistics scenarios that require fast packaging.

The design of the locking machine part is also excellent, with a clamping capacity of up to 16850N, which ensures that the steel belt will not loosen or break after the locking, greatly improving the safety and stability of the packaging. Whether facing high-intensity transportation environment or long-term storage needs, this baler can provide reliable protection.

In addition, the equipment adopts a split design, the tensioner and the latching machine can be operated separately, which is more flexible and can adapt to different work scenarios and needs.

In terms of operation, this high-performance pneumatic split baler is designed to be very user-friendly, and even users who have first contact with packaging equipment can quickly get started. With clear operating instructions and an intuitive control panel, users can easily adjust the parameters to suit different packaging needs.

Our Product Introduction

At the same time, the structure of the equipment is simple and easy to maintain, reducing downtime and maintenance costs. Whether it is a small and medium-sized enterprise or a large factory, this baler can become a useful assistant to improve production efficiency.

Overall, this high-performance pneumatic split baler is ideal for industrial packaging with its strong pull, fast packing speed, reliable locking performance and easy operation. It can not only meet the needs of high-intensity packaging, but also provide users with an efficient, safe and convenient user experience.

Model number	W-KZS32
specification	32mm
use air pressure	0.4-0.6Mpa
breadth	0.8*1.2mm
Bear the Tension	16.85N
Net weight (m.w.)	3.6kg
