KF7001 Manual Strapping Tools Simple And Intuitive Operation For Novice Users

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: KF7001
- Minimum Order Quantity: 1
- Price: To be discussed
- Delivery Time: 5-8 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100 box per 10days

Product Specification

- Model: KF7001
- Packing Belt: PP
- Breadth: 12-16mm
- Thickness: 0.5-1.2mm
- Material: Steel
- Weight: 1.10kg
- Highlight: **Intuitive Operation Manual Strapping Tools, Simple Manual Strapping Tools, Novice Users Manual Strapping Tools**

Product Description

KF7001 manual baler

In the logistics, manufacturing and processing industries, efficient and reliable packaging tools are key to ensuring the safe transportation of goods. The KF7001 tensioner and clamp combination, coupled with high-quality packaging buckle, provides you with a complete packaging solution for a variety of industries and materials, making packaging more efficient and stable!

Strong compatibility, more stable with packing buckle

The KF7001 tensioner is suitable for PP packing tape with a width of 12-16mm and a thickness of 0.5-1.5mm. The use of high-quality packing buckle can effectively prevent the packing belt from loosening or breaking, ensuring the safety of the goods during transportation. Whether it's light packing or medium cargo fixation, this tool is easy to handle, giving you a more stable and reliable packing experience.

Easy to operate, easy to use

The design of the KF7001 tensioner focuses on the user experience, and the operation is simple and intuitive, even the novice can quickly master. We also provide detailed how-to videos that show you how to use the tensioner, clamp, and buckle to ensure that you can easily complete your packing job and increase your productivity.

Use together, the effect is better

The tensioner is used with the packing buckle to achieve more efficient packing operations. The tensioner is used to tighten the packing belt to ensure its tight fit to the goods; The clamp is used to fix the packing belt and prevent it from loosening; Finally, use the packing buckle to lock and ensure that the connection of the packing belt is firm and reliable. The combination of the three to create a solid packaging effect for your cargo transport escort.

Wide range of application scenarios

The KF7001 tensioner is versatile and suitable for many industries. Whether a logistics company needs to pack a large amount of goods quickly or a manufacturing plant needs to secure medium-sized materials, this set of tools can do the job. Its strong compatibility and stable performance make it an ideal choice for paper, aluminum, steel, cotton mills and other industries.

Our Product Introduction

Conclusion

KF7001 tensioner provides you with a complete packaging solution to make packaging more efficient and stable! Whether it's to increase productivity or keep your cargo safe, this suite of tools meets your needs. Choose KF7001 to make packing easier and more efficient for your cargo transport!
