Product Description

AQD25 pneumatic packaging machine

In the busy world of logistics, every second counts. AQD25 pneumatic baler, with its excellent performance and reliability, becomes your indispensable packaging partner, helping you easily meet various challenges and improve work efficiency.

Our Product Introduction

Designed for high strength packaging:

Powerful power: The maximum pulling force is up to 4500N, easily tying heavy goods such as steel, aluminum, paper rolls, etc., to ensure transportation safety.

Widely applicable: Compatible with 19-25mm wide, 0.5-1.2mm thick PET plastic steel belt and PP packaging belt, to meet the needs of different industries.

Stable and reliable: The use of high-quality pneumatic components, even in high pressure environment can be stable operation, to ensure the quality of packaging.

Easy to operate and maintain: Humanized design: The operation is simple and easy to understand, even beginners can quickly get started, saving training costs.

Complete accessories: manual, tool kit and maintenance oil are provided with the machine to facilitate daily maintenance and maintenance of the user and extend the service life of the machine.

Safety and environmental protection: In line with safety and environmental protection standards, no pollution during use, to ensure the health of operators.

Wide range of applications: logistics and transportation, paper industry, metal processing, textile industry.

Technical parameters:

Applicable packing belt width: 19-25mm

Applicable packing tape thickness: 0.5-1.2mm

Maximum tension: 4500N

Applicable air pressure: 0.5-0.8Mpa

Recommended outer diameter of the gas pipe for connecting the air pump: 12mm

An oil-water separator must be installed

Choose AQD19 pneumatic baler for efficient and reliable packaging solutions!

We believe that AQD19 pneumatic baler will become your effective assistant to improve work efficiency and reduce costs!
