### Product Description

#### S13 Manual 3-in-1 baler

S13 Manual bearing type PP baler is a practical strapping tool specially designed for 13mm wide PP packing belt, using bearing type tension structure, more smooth operation and labor saving, suitable for logistics, warehousing, manufacturing, express delivery and other industries of goods fixed needs. Whether it is light packaging or heavy cargo strapping, it provides stable and efficient packaging results, ensuring safety and convenience during transportation and storage.

#### Bearing type tension design for easier operation

Using high-precision bearing transmission structure, compared with the traditional gear baler, the tensioning process is more smooth, reducing friction resistance, greatly reducing the operator's physical consumption, long-term use is not easy to fatigue.

#### Strong binding, firm and not loose

The optimized tension system provides a strong tightening force to ensure that the PP packing belt is tightly fitted to the cargo, effectively preventing loosening or loose packaging during transportation, and is suitable for the fixation of heavier cargo.

#### Three in one, all in one

Set tightening, locking, cutting functions in one, without additional tools to complete the entire packaging process, improve work efficiency, especially suitable for frequent packaging work environment.

#### Strong durability, long-term stability

The fuselage is made of high-strength steel, and the key components are heat treated and precision machined to make them wear-resistant and impact-resistant, suitable for high-strength work and longer service life.

#### Wide application, flexible and efficient

Compatible with 13mm PP packing belt, it can be used in cartons, wooden boxes, pallets, building materials, home appliances, waste recycling and other scenarios to meet the binding needs of different industries.
