Product Description

Pneumatic tensioner

FTS32 pneumatic split baler, with excellent performance and reliable quality, has become an indispensable assistant in various industrial scenarios. Designed for high-intensity, high-efficiency packaging, it is dedicated to bringing unprecedented convenience and efficiency to your packaging process.

Our Product Introduction

It can firmly tighten the steel belt to ensure the stability and compactness of the packaging. The locking machine also performs well, with the clamp bearing a tensile force of up to 15000N, firmly locking the steel belt, effectively preventing loosening, and providing reliable protection for your cargo transportation and storage.

The baler is suitable for 32mm wide, thickness of 0.6-1.2mm steel belt, a wide range of applications, can meet the needs of different specifications of packaging. When in use, it is necessary to match the air pump, the air pressure requirement is 0.49-0.63Mpa, and the stable air pressure supply helps the baler to work continuously and efficiently.

Its use is extremely wide, in the steel, aluminum industry, can firmly pack all kinds of metal materials; Bricks can also be effectively packed in a brick factory. Whether it is heavy industrial products or all types of building materials, FTL/S32 can easily cope with the packaging of goods in various industries to provide solid support.

Purchase FTL/S32 pneumatic split baler, we will also provide detailed instructions to help you quickly get started; It also comes with a kit to meet the needs of daily maintenance and simple debugging, so that you have no worries. By choosing FTS32, you are choosing an efficient and reliable packaging solution.
