

## K2 Electric Packaging Machine Adjustable Binding Force for Lightweight and Heavy-duty Goods

Our Product Introduction

for more products please visit us on [setupack.com](http://setupack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: K2
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 44.5\*28.5\*18.5cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100+box+10days

### Product Specification

- Width: 13-16mm
- Thickness: 0.6-1.2mm
- Applicable Straps Type: PET、PP
- Speed: 100-200mm/s
- Strapping Force: 400-3200N
- Voltage: 14.4V
- Capacity: 4.0Ah
- Weight: 3.2kg

### Product Description

#### K2 Electric packaging machine

In industries such as logistics, building materials, textiles, and metal processing, efficient and secure binding is the key to ensuring the safety of goods transportation and enhancing operational efficiency. For this reason, we have launched a new generation of professional electric strapping machines, which integrate high performance, intelligence and humanized design, meeting diverse strapping needs and becoming a powerful assistant in the packaging process of various industries.

**Core advantage:** Subverting the traditional

Ultra-long battery life, fearless of high-intensity operations

Equipped with a 4000mAh high-performance lithium battery, it can complete approximately 300 bundling operations on a single charge, with a battery life far exceeding that of similar products. It can easily handle peak logistics periods or continuous production line operations, saying goodbye to the trouble of frequent charging.

Intelligent adjustment, one device suitable for multiple scenarios

The binding force ranging from 400 to 3200N is freely adjustable. Whether it is lightweight cartons, fragile textiles, or heavy steel and aluminum materials, it can precisely match the binding force to ensure "tight but not chipping, stable but not loosening", providing worry-free transportation safety.

Ultra-fast tensioning, doubling the efficiency

The tensioning speed can reach up to 200mm/s, and it only takes a few seconds from startup to completion of strapping. It is particularly suitable for assembly line operations or large-scale strapping needs, helping enterprises significantly improve packaging efficiency and reduce labor costs.

Our Product Introduction

Lightweight design, zero threshold for operation

The overall weight of the machine has been optimized and it is ergonomically designed, ensuring no fatigue even after long-term use. Equipped with an intelligent control system and one-click operation function, even beginners can quickly get started, reducing training costs.

It covers all industries and is widely applied

Logistics and warehousing: Rapid strapping of cartons and pallets, and optimization of loading and unloading processes.

Building materials industry: Firmly bind bricks and pipes to prevent scattering during transportation.

Metal processing: High-strength binding of steel and aluminum coils, wear-resistant and impact-resistant.

Textile industry: Flexible binding of fabrics and cotton yarns to prevent material deformation.

Ready to use out of the box, saving you time and effort

It comes standard with an instruction manual, a tool kit, a certificate of conformity and a charger.

There is no need to purchase additional accessories. You can start working immediately after unpacking, truly achieving efficient operation

with "zero preparation".

Upgrade your strapping experience, choose a professional electric strapping machine! Whether it is to enhance production line efficiency or optimize logistics costs, it will become an indispensable intelligent tool for you.

width	13-16mm
Thickness	0.6-1.2mm
Appcable Straps Type	PET,PP
Speed	100-200mm/s
Strapping Force	400-3200N
Battery Voltage	14.4V
Battery Capacity	4.0Ah
Charging time	About 90 Minutes
Net weight (m.w.)	3.2kg

1. Company main products: pneumatic strapping tools, battery powered strapping tools, steel strapping machines, manual strapping tools, pneumatic welding tools semi automatic strapping machine with double motors fully automatic strapping machines dispensers and various types of packing materials.

2. The products are widely used in iron, steel, nonferrous metals building materials, chemical fiber tobacco paper textiles manufacturing logistics and other industries, transportation storage and other links.

3. The company has complete products specifications, reliable quality and a complete and scientific quality management system.

4. The products sell well in the market with a higher status, the company has a number of retailers and agents to establish a long-term stable partnership, with complete products specification competitive price and the contract and accreditation honoring, ensure the table quality with diversified business small profits and quick turn over to win the customers.

#### FAQ

1. What are your strengths?

Honest management, competitive prices and professional export services.

2. How can I trust you?

A: We think honesty is the life of our company. In addition, we have trade guarantee. Your orders and funds will be well guaranteed.

3. Can you guarantee your products?

A: Yes, we guarantee 100% satisfaction with all our products. If you are not satisfied with our quality or service, please report back immediately.

4. Where are you? Can I come and see you?

A: Of course. You are welcome to visit our factory anytime.

5. Which payment methods do you support?

A: We accept telegraphic transfer, 100% sight L/C, Western Union, D/P, D/A, MoneyGram and other payment methods. If you have other payment methods, please contact me.
