

Packaging Solutions Next Generation Fully Automatic Strapping Tools with Technological Breakthroughs

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: K2
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 44.5*28.5*18.5cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Width: 13-16mm
- Thickness: 0.6-1.2mm
- Applicable Straps Type: PET, PP
- Speed: 100-200mm/s
- Strapping Force: 400-3200N
- Voltage: 14.4V
- Capacity: 4.0Ah
- Weight: 3.2kg

Product Description

K2 Electric packaging machine

In modern industrial production and logistics transportation, the traditional strapping method has been difficult to meet the demands of high efficiency, precision and energy conservation. For this reason, we have spared no effort to create a new generation of intelligent electric strapping machines, redefining strapping standards with innovative technology and providing more intelligent and reliable packaging solutions for various industries. Technological breakthroughs lead the industry

Military-grade power system

It adopts a high-torque brushless motor, combined with precise gear transmission, providing stronger power output and a 300% longer service life. Even after long-term high-load operation, it can maintain stable performance.

AI intelligent strapping system

It is equipped with an internal pressure sensor and an intelligent chip, which can automatically identify the weight and material of the goods and intelligently match the optimal strapping force (400-3200N), completely eliminating the hassle of manual adjustment and achieving "foolproof" precise operation.

Lightning-fast binding speed

It achieves a breakthrough of 0.3 seconds for rapid strap biting and an ultra-high-speed tensioning of 200mm/s. The single strapping time is reduced by 50% compared to traditional equipment, significantly boosting the efficiency of your production line.

Our Product Introduction

Humanized design, upgraded experience
 Ultra-long battery life: Military-grade 4000mAh lithium battery, supporting over 300 continuous operations, and equipped with an intelligent battery management system that displays the remaining battery power in real time.
 Ultimate lightness: With an aviation-grade aluminum alloy frame, the overall weight of the machine is reduced by 30%, making it effortless to hold with one hand.
 Silent operation: Innovative noise reduction technology ensures that the working noise is below 60 decibels, creating a comfortable working environment.
 All-scenario application, covering everything
 From light express packages to heavy metal profiles, from soft textiles to fragile building materials, one machine can handle it all:
 Logistics industry: Handling over 2,000 packages daily without any pressure
 Steel plant: Easy binding of high-temperature steel billets
 Textile workshop: Perfect protection of high-end fabrics
 Building materials market: Bricks and pipes are bound more firmly
 Intelligent service, worry-free throughout the process
 Each device is equipped with a dedicated QR code. Scan the code to obtain:
 Video Operation Guide
 Online technical support
 Nearby service outlets
 One-click ordering of accessories
 Upgrade now and enjoy three grand gifts:
 Receive a professional tool set worth 299 yuan for free
 Enjoy a 3-year motor warranty service
 Professional engineers provide on-site training
 Say goodbye to traditional strapping methods and embrace the new era of intelligent packaging! This electric strapping machine is not only an upgrade of tools, but also a revolutionary breakthrough in production efficiency.

| | |
|----------------------|------------------|
| width | 13-16mm |
| Thickness | 0.6-1.2mm |
| Appcable Straps Type | PET,PP |
| Speed | 100-200mm/s |
| Strapping Force | 400-3200N |
| Battery Voltage | 14.4V |
| Battery Capacity | 4.0Ah |
| Charging time | About 90 Minutes |
| Net weight (m.w.) | 3.2kg |

1. Company main products: pneumatic strapping tools, battery powered strapping tools, steel strapping machines, manual strapping tools, pneumatic welding tools semi automatic strapping machine with double motors fully automatic strapping machines dispensers and various types of packing materials.
2. The products are widely used in iron, steel, nonferrous metals building materials, chemical fiber tobacco paper textiles manufacturing logistics and other industries, transportation storage and other links.
3. The company has complete products specifications, reliable quality and a complete and scientific quality management system.
4. The products sell well in the market with a higher status. The company has a number of retailers and agents to establish a long-term stable partnership, with complete products specification competitive price and the contract and credit honoring, ensure the table quality with diversified business small profits and quick turn over to win the customers.

FAQ

1, What are your strengths?

Honest management, competitive prices and professional export services.

2, How can I trust you?

A: We think honesty is the life of our company. In addition, we have trade guarantee. Your orders and funds will be well guaranteed.

3, Can you guarantee your products?

A: Yes, we guarantee 100% satisfaction with all our products. If you are not satisfied with our quality or service, please report back immediately.

4, Where are you? Can I come and see you?

A: Of course. You are welcome to visit our factory anytime.

5.Which payment methods do you support?

A: We accept telegraphic transfer, 100% sight L/C, Western Union, D/P, D/A, MoneyGram and other payment methods. If you have other payment methods, please contact me.
