

4000mAh High-Performance Lithium Battery for Up to 300 Bundling Cycles The Ideal Choice for Logistics and Warehousing

Our Product Introduction

for more products please visit us on setuopack.com

Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: K2
- Minimum Order Quantity: 1 stage
- Price: To be discussed
- Packaging Details: 44.5*28.5*18.5cm
- Delivery Time: 10-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100+box+10days

Product Specification

- Width: 13-16mm
- Thickness: 0.6-1.2mm
- Applicable Straps Type: PET、PP
- Speed: 100-200mm/s
- Strapping Force: 400-3200N
- Voltage: 14.4V
- Capacity: 4.0Ah
- Weight: 3.2kg

Product Description

K2 Electric packaging machine

In industries such as logistics, building materials, textiles, and metal processing, efficient and secure binding is the key to ensuring the safety of goods transportation. The traditional manual strapping method is inefficient and time-consuming, while ordinary electric strapping machines often encounter problems such as short battery life and inaccurate force. For this reason, we have launched a new generation of professional-grade electric strapping machines, which integrate intelligent adjustment, ultra-long battery life and high-speed strapping, providing more labor-saving and reliable strapping solutions for various industries.

Core advantage: The perfect combination of performance and convenience

Super long battery life and long-lasting durability

Equipped with a 4000mAh high-performance lithium battery, it can complete approximately 300 bundling cycles on a single charge, easily meeting the demands of high-intensity operations and avoiding the hassle of frequent charging. It is particularly suitable for scenarios such as logistics and warehousing, as well as production lines.

Intelligent adjustment, precise force control

The binding force can be freely adjusted within the range of 400N to 3200N. Whether it is light cartons or heavy steel, it can be precisely adapted to ensure that the binding is tight and not loose, making transportation safer.

High-speed tightening doubles the efficiency

The tensioning speed is as high as 100-200mm/s, with smooth and rapid operation, significantly enhancing the packaging speed. It is particularly suitable for assembly line operations or batch strapping needs, helping you easily handle the peak shipping period.

Humanized design ensures worry-free operation

The whole machine features a lightweight design that conforms to ergonomics and does not

Our Product Introduction

cause fatigue even after long-term use. Equipped with an intelligent control system, the bundling can be completed with just one click. Even beginners can quickly get started, reducing training costs. All accessories are complete and ready to use right out of the box
 The box comes with an instruction manual, a tool kit, a certificate of conformity and a charger. There is no need to purchase them separately. You can start working immediately after opening the box, saving time and effort.
 Widely compatible and applicable to multiple industries
 Logistics transportation: Cartons and pallets should be securely fastened to prevent damage to the goods.
 Building materials industry: Bricks, aluminum materials and steel pipes are easily bundled and moved more efficiently.
 Textile industry: Cotton textiles and fabric rolls are neatly packed, saving storage space.
 Metal processing: Heavy materials such as steel and copper pipes are securely bound to ensure transportation safety.
 Why choose this strapping machine?
 More effortless: Say goodbye to the hassle of manual packaging and reduce labor costs.
 More efficient: High-speed strapping shortens operation time and enhances overall efficiency.
 More reliable: Intelligent adjustment ensures the tightness of each bundle strap, reducing the risk of cargo damage.
 Whether it's enhancing packaging efficiency or optimizing warehouse management, this electric strapping machine can be your reliable assistant. Upgrade your equipment, choose a professional one, and make strapping simpler!

width	13-16mm
Thickness	0.6-1.2mm
Appcable Straps Type	PET,PP
Speed	100-200mm/s
Strapping Force	400-3200N
Battery Voltage	14.4V
Battery Capacity	4.0Ah
Charging time	About 90 Minutes
Net weight (m.w.)	3.2kg

1. Company main products: pneumatic strapping tools, battery powered strapping tools, steel strapping machines, manual strapping tools, pneumatic welding tools semi automatic strapping machine with double motors fully automatic strapping machines dispensers and various types of packing materials.
2. The products are widely used in iron, steel, nonferrous metals building materials, chemical fiber tobacco paper textiles manufacturing logistics and other industries, transportation storage and other links.
3. The company has complete products specifications, reliable quality and a complete and scientific quality management system.
4. The products sell well in the market with a higher status, the company has a number of retailers and agents to establish a long-term stable partnership, with complete product specification competitive price and the contract and accreditation honoring, ensuring the quality with diversified business small profits and quick turn over to win the customers.

FAQ

1. What are your strengths?
 Honest management, competitive prices and professional export services.
2. How can I trust you?
 A: We think honesty is the life of our company. In addition, we have trade guarantee. Your orders and funds will be well guaranteed.
3. Can you guarantee your products?
 A: Yes, we guarantee 100% satisfaction with all our products. If you are not satisfied with our quality or service, please report back immediately.
4. Where are you? Can I come and see you?
 A: Of course. You are welcome to visit our factory anytime.
5. Which payment methods do you support?
 A: We accept telegraphic transfer, 100% sight L/C, Western Union, D/P, D/A, MoneyGram and other payment methods. If you have other payment methods, please contact me.
