

## Pneumatic strapping tool KZ32B enhances your packaging efficiency and ensures the safety of your goods

Our Product Introduction

for more products please visit us on [setupack.com](http://setupack.com)

### Basic Information

- Place of Origin: China
- Brand Name: Zhuoyu
- Certification: CE
- Model Number: KZ32B
- Minimum Order Quantity: 1 stage
- Price: please contact us
- Packaging Details: The package of each machine is a small box, 490\*340\*310mm
- Delivery Time: 10-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 box per 10days

### Product Specification

- Applicable Strap Specifications: 32x0.9mm
- Air Pressure: 0.49-0.63Mpa
- Bear The Tension:  $\geq 13\text{KN}$
- Tension Force:  $\geq 8.5\text{KN}$
- Net Weight (N.w.): 15kg
- Weight: 17.0kg

### Product Description

#### Pneumatic strapping tools and strapping machines

In modern industrial production, efficient packaging and fixation equipment are crucial for ensuring the safety of goods transportation and enhancing operational efficiency. The KZ32B integrated pneumatic strapping machine, with its outstanding performance and wide applicability, has become the ideal choice in the heavy-duty strapping field. Whether it is the heavy packaging needs of industries such as steel, aluminum or brick factories, KZ32B can provide stable and reliable solutions.

Our Product Introduction

#### I. Product Overview

The KZ32B integrated pneumatic strapping machine is specially designed for 32mm wide steel belts. It adopts pneumatic drive technology and integrates the functions of tensioning, locking and cutting. Its structure is compact and operation is simple. It can maintain stable performance in high-intensity working environments and significantly improve packaging efficiency.

#### II. Core Performance Advantages

##### Strong tension force

The tensioning force of KZ32B is as high as 8500N, which can ensure that the steel belt closely adheres to the goods and prevent displacement or damage caused by loosening during transportation. This feature is particularly suitable for the fixation of heavy materials (such as steel and aluminum ingots), effectively enhancing the overall packaging safety.

##### Ultra-high clamping mouth bearing capacity

The clamping mouth can withstand a force of 13,000 N, far exceeding that of similar products, ensuring that the locking link is firm and reliable. Even in the face of severe vibration or impact, the packing straps are not easy to fall off or break, meeting the high-load transportation requirements.

##### Integrated and efficient design

Automated operation is achieved through pneumatic drive, with one-click completion of the tensioning, locking and cutting processes, significantly reducing manual intervention. Compared with traditional manual tools, the working efficiency is increased by more than 50%, while the labor intensity of the operator is reduced at the same time.

#### III. Extensive application scenarios

The durability and adaptability of the KZ32B make it the preferred device for multiple industries:

Steel and aluminum industry: Binding large metal coils and plates to meet the demand for high-strength fixation.

In the building materials field: Containerization and packaging of heavy goods such as bricks and stones to ensure the safety of long-distance transportation. Logistics and warehousing: Transportation and fixation of large mechanical equipment to prevent slippage during transportation.

#### IV. User Value

Strong reliability: High-strength materials and precise craftsmanship ensure the long-term stable operation of the equipment.

Economical and efficient: Reduce the waste of packing straps and lower the overall cost.

Operational safety: Complies with industrial safety standards, equipped with anti-mistouch design to protect the safety of operators.

##### Conclusion

The KZ32B integrated pneumatic strapping machine, with its outstanding tension force, superior clamping performance and wide range of application scenarios, has become a benchmark product in the heavy-duty strapping field. Whether it is to enhance operational efficiency or ensure transportation safety, it can provide users with reliable solutions.

Choosing KZ32B means choosing efficiency, stability and peace of mind.

Air Pressure	0.42-0.6Mpa
Applicable straps Type	Steel strap
Tension Force	≥4.5KN
Bear the tension	≥6.3KN
Net Weight(N.W.)	4.2kg

1. Company main products: pneumatic strapping tools, battery powered strapping tools, steel strapping machines, manual strapping tools, pneumatic welding tools semi automatic strapping machine with double motors fully automatic strapping machines dispensers and various types of packing materials.

2. The products are widely used in iron, steel, nonferrous metals building materials, chemical fiber, tobacco, paper, textiles, manufacturing, logistics and other industries, transportation, storage and other links.

3. The company has complete products specifications, reliable quality and a complete and scientific quality management system.

4. The products sell well in the market with a higher status. The company has a number of retailers and agents to establish a long-term stable partnership, with complete products specification, competitive price and the contract and accreditation honoring, ensuring the table quality with diversified business, small profits and quick turn over to win the customers.

#### FAQ

1, What are your strengths?

Honest management, competitive prices and professional export services.

2, How can I trust you?

A: We think honesty is the life of our company. In addition, we have trade guarantee. Your orders and funds will be well guaranteed.

3, Can you guarantee your products?

A: Yes, we guarantee 100% satisfaction with all our products. If you are not satisfied with our quality or service, please report back immediately.

4, Where are you? Can I come and see you?

A: Of course. You are welcome to visit our factory anytime.

5, Which payment methods do you support?

A: We accept telegraphic transfer, 100% sight L/C, Western Union, D/P, D/A, MoneyGram and other payment methods. If you have other payment methods, please contact me.
