Product Description

KZ19 pneumatic linkage strapping machine

1. Professional scope of application

This pneumatic linkage strapping machine is specially designed for heavy-duty packaging and is suitable for strapping 19mm steel straps. It can meet the fixation requirements of heavy goods in industries such as steel, building materials, and wood, and is an ideal choice for industrial-grade strapping.

2. Super strong binding performance

The equipment adopts an efficient pneumatic system, providing a strong pulling force of up to 4500N, ensuring that the steel straps are securely and reliably bound, and maintaining excellent stability even when dealing with heavy goods.

3. Excellent structural strength

The specially designed clamp opening can withstand an extremely strong tensile force of 63,000N, making it sturdy and durable. It effectively prevents the steel straps from loosening or breaking during the binding process, ensuring transportation safety.

4. Wide industrial application

It is suitable for the packaging and fixation of all kinds of heavy goods, including steel, pipes, wood and large-scale mechanical equipment, etc., and is widely used in manufacturing, logistics transportation and construction industries.

5. Efficient and stable operation

Pneumatic drive ensures rapid response and stable performance. It is simple and efficient to operate, significantly improving strapping efficiency. It is a reliable helper for heavy industrial packaging.
