### Product Description

#### V1 Electric strapping machine

This electric strapping machine is specially designed for efficient and convenient strapping needs. It is compatible with various material strapping bands such as PET and PP with a width of 13-16mm and a thickness of 0.4-1.2mm. It has strong applicability and can meet the strapping requirements of different industries.

The equipment offers adjustable packaging force ranging from 400 to 3500N, easily meeting the fixation requirements of both light and heavy goods and ensuring transportation safety. In terms of power, it is equipped with an 18V high-energy lithium battery and a 2.0Ah large-capacity battery pack, providing a long range and supporting long-term operation. The charging efficiency is excellent. It only takes 60 minutes to fully charge, reducing waiting time and improving work efficiency.

Its lightweight design combined with user-friendly operation makes it suitable for scenarios such as warehousing, logistics, and manufacturing. It is an ideal tool for enhancing packaging efficiency and reducing labor intensity.
