

## Visual Positioning Accuracy $\pm 0.3\text{mm}$ Sealing Machine Military-grade 304 Stainless Steel Minimum Character Height for Coding 1.5mm

Our Product Introduction

for more products please visit us on [setuopack.com](http://setuopack.com)

### Basic Information

- Place of Origin: China
- Brand Name: ZHUOYU
- Certification: CE
- Model Number: FR900
- Minimum Order Quantity: 5 sets
- Price: To be discussed
- Packaging Details: 900\*420\*340mm for one set, paper box
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 box per 10 days

### Product Specification

- Minimum Character Height For Coding: 1.5mm
- Data Traceability: Yes
- Temperature: 0~300°C
- Model: FR-1600
- Offline Programming Support: Yes
- Supply Voltage: 220V 50Hz
- Visual Positioning Accuracy:  $\pm 0.3\text{mm}$
- Inkjet Coding Resolution: 600DPI

### Product Description

#### Product Description:

The Cup Sealing Machine is a versatile and efficient device designed for sealing cups with precision and reliability. With advanced sealing technology, this machine ensures optimal performance and consistent results every time.

Equipped with Digital PID temperature control, the Cup Sealing Machine allows for precise adjustment of the sealing temperature, ensuring a secure and airtight seal for various types of cups. This feature not only enhances the quality of the seal but also helps in maintaining the freshness and integrity of the contents inside the cups.

The machine operates on a supply voltage of 220V and 50Hz, making it suitable for use in a wide range of settings. Whether in a commercial kitchen, food stall, or beverage shop, this Heat Sealing Machine can seamlessly integrate into different environments and deliver exceptional sealing performance.

One of the key highlights of this Cup Sealing Machine is its offline programming support. This feature allows users to easily program and customize the sealing process according to their specific requirements. By offering flexibility and convenience, the machine enables users to streamline their operations and achieve consistent sealing quality.

Measuring at L900xW630xH370(mm), the Cup Sealing Machine is compact yet spacious enough to accommodate different cup sizes and volumes. Its ergonomic design and optimal size make it a practical choice for businesses looking to optimize their sealing processes without compromising on space.

With a motor power of 80w, this Filling and Sealing Machine delivers efficient sealing performance while ensuring energy savings. The motor power is optimized to provide the right balance between sealing speed and energy consumption, making the machine cost-effective and eco-friendly.

In conclusion, the Cup Sealing Machine is a reliable and efficient solution for businesses seeking high-quality and consistent cup sealing. With its advanced features such as Digital PID temperature control, offline programming support, and compact size, this Heat Sealing

Machine offers versatility and convenience for various sealing applications. Invest in this machine to enhance your sealing process and elevate the overall efficiency of your operations.

### Features:

Product Name: Sealing Machine  
Sealing Pressure Adjustment: Automatic  
Sealing Technology: Digital PID temperature control  
Supply Voltage: 220V 50Hz  
Offline Programming Support: Yes  
Temperature: 0~300°C

### Technical Parameters:

After-sales Service	One-year warranty, 24-hour technical response, free operation training, lifetime maintenance service
Panel Material	Stove Varnish
Touch Screen Size	7-inch industrial-grade
Temperature	0~300°C
Offline Programming Support	Yes
Motor Power	80w
Inkjet Coding Resolution	600DPI
Minimum Character Height for Coding	1.5mm
Supply Voltage	220V 50Hz
Sealing Pressure Adjustment	Automatic

### Applications:

ZHUOYU FR900 Sealing Machine is a versatile and high-quality product that can be used in a variety of product application occasions and scenarios. With its CE certification and origin from China, this machine is a reliable choice for businesses looking for efficient packaging solutions.

One of the key application scenarios for the ZHUOYU FR900 Sealing Machine is in the packaging industry. This machine is ideal for sealing cases and boxes efficiently, making it a perfect fit for businesses involved in packaging and shipping products.

Another important application occasion for this machine is in food processing and packaging. The ZHUOYU FR900 Sealing Machine can be used for sealing bags and pouches, making it a valuable tool for businesses in the food industry looking to maintain product freshness and quality.

Additionally, the ZHUOYU FR900 Sealing Machine is well-suited for use in pharmaceutical manufacturing and packaging. Its military-grade 304 stainless steel material ensures compliance with strict hygiene standards, making it a reliable choice for sealing medication packages securely.

Moreover, this machine is also suitable for use in the e-commerce industry for sealing parcels and packages securely before shipping. With its offline programming support and data traceability feature, businesses can ensure accurate and efficient packaging processes. Businesses looking to invest in the ZHUOYU FR900 Sealing Machine can benefit from its supply ability of 100 boxes per 10 days, ensuring a consistent production output. The machine's quick delivery time of 5-8 work days and packaging details of 900\*420\*340mm for one set in a paper box make it a convenient choice for businesses with tight timelines.

In conclusion, the ZHUOYU FR900 Sealing Machine is a versatile and reliable product that can be applied in various industries and scenarios, including case sealer machine, filling and sealing machine, and packaging applications. With its high-quality construction, offline programming support, and data traceability feature, this machine is a valuable asset for businesses looking to streamline their packaging processes.

### Support and Services:

The Product Technical Support and Services for the Sealing Machine product include:

- Assistance with machine setup and installation
- Troubleshooting and diagnostics for machine issues
- Maintenance guidance and servicing recommendations
- User training and operational support

### Packing and Shipping:

Product Packaging:  
The sealing machine is carefully packaged in a sturdy cardboard box to ensure safe delivery. Inside the box, the machine is securely placed with protective foam padding to prevent any damage during transit.

Shipping:  
We offer fast and reliable shipping services for the sealing machine. Orders are processed promptly, and the machine is shipped out within 1-2 business days. Customers can track their order online to monitor the delivery status.

### FAQ:

Q: What is the brand name of the sealing machine?  
A: The brand name of the sealing machine is ZHUOYU.

Q: What is the model number of the sealing machine?  
A: The model number of the sealing machine is FR900.

Q: Where is the sealing machine manufactured?  
A: The sealing machine is manufactured in China.

Q: What is the minimum order quantity for the sealing machine?  
A: The minimum order quantity for the sealing machine is 5 sets.

Q: What are the available payment terms for purchasing the sealing machine?  
A: The available payment terms for purchasing the sealing machine are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.
